04/27/2001

Group Art Unit:

2833

Examiner:

Ta, Tho Dac

Title:

7d7 5/16/05

ELECTRIC CONNECTION FOR FUEL INJECTORS

## REQUEST FOR RECONSIDERATION

Mail Stop AF Commissioner for Patents P. O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

This paper is responsive to the Final Office Action mailed on November 3, 2004.

The obviousness rejection must be withdrawn because there is no motivation for making the combination. In the most recent Response, Applicant pointed out why there is no henefit to making the proposed combination of Romann, et al. and Murakami. The same reasoning applied to the §103 rejections proposed by the Examiner, which Applicant respectfully asks the Examiner to Applicant appealed two years ago. reconsider the rejections in light of the absence of motivation for making the combination. Applicant does not desire to have to file another appeal brief when Applicant is confident that the remaining §103 rejection will not survive an Appeals Conference.
